

CCaaS Solutions

Achieving Operational Excellence, Increased Customer Satisfaction and Business Growth

Contact Centre as a Service (CCaaS) is a cloud-based customer experience solution that has transformed how businesses connect with their customers. Invosys CCaaS offer an all-encompassing solution that drives customer satisfaction while increasing operational efficiency, equipping businesses with advanced tools to provide exceptional customer service.

CCaaS Benefits

- ▶ Get up and running with swift setup and easy implementation.
- ▶ Cost-effective solutions that drive value for your business.
- ▶ Enhanced and unified customer experience plus AI-driven analytics
- ▶ Rest assured, you will receive 24/7 technical support and comprehensive disaster recovery plans.
- ▶ We provide top-notch security with our advanced fraud protection services.
- ▶ Easily adjust operations according to customer demand with our scalable and flexible solutions.
- ▶ Cloud based, therefore ideal for the distributed workforce - access anywhere with an internet connection.

CCaaS Features to Boost Customer Satisfaction

Full integration with UCaaS solutions and platforms

Round-the-clock support and disaster recovery plans.

Robust fraud protection when integrated with our Call Shield software.

Workforce Optimisation tools to drive efficiency & improve service metrics.
