

SUMMER SPECIAL OFFER!

ZyXel VMG8623-T50B & ZyXel DX3301-T0 Routers

Future-Ready Connectivity & VoIP Solutions Powered by Invosys

FTTP & SoGEA Deployments

Invosys proudly supplies the ZyXel VMG8623-T50B and DX3301-T0 – two powerful, future-proof routers designed for Fibre to the Premises (FTTP) and SoGEA connections. Both models deliver exceptional performance with:

- ▶ Dual-Band Wi-Fi for strong, reliable wireless coverage
- ▶ Advanced configuration capabilities to meet any deployment need
- ▶ Gigabit Ethernet ports for high-speed wired connections

* JULY AND AUGUST PRICES ONLY

Built-In VoIP Functionality

Simplify your voice setup with integrated FXS ports on each model. Plug in a standard analogue handset, provision a SIP account, and you've got a fully functional VoIP line – no additional hardware required.

Simplified Remote Management with Invosys ACS

Our Auto Configuration Server (ACS) platform allows you to effortlessly manage customer routers from anywhere:

- ▶ See if devices are online or offline in real time
- ▶ Remotely adjust Wi-Fi settings
- ▶ Push SIP/VoIP credentials or updates
- ▶ Run diagnostics and resolve issues remotely

This makes it easier than ever to deploy, support, and manage customer routers – all without needing to send engineers on-site.

Why Invosys?

- ▶ Trusted UK-based telecoms provider
- ▶ Scalable solutions tailored to your business
- ▶ Outstanding 24/7 support from setup to deployment

Get in touch today to streamline your router and VoIP deployments.
